SAY HELLO TO IRELAND

Looking for ideas for your own tour?
We will create your Irish dream and guide you to all the places you want to visit, helping to make the most out of your time in the Emerald Isle of Ireland

Let's go have the craic!
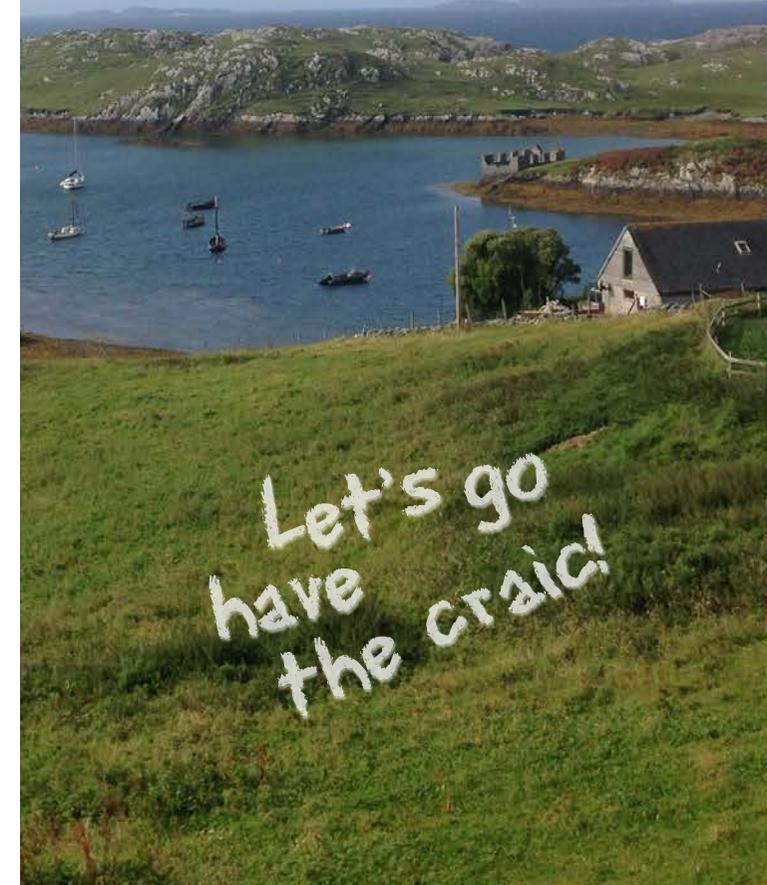

Ireland, the "Emerald Isle", with its green countryside and a population of about six million inhabitants, is one of the least populated countries and least industrialized in Europe.

Not so hot and not so cold with an annual average temperature of 10° C, the climate is of the temperate type, gentle and soft, and if it rains, like the Irish say, there is always a beautiful rainbow, cosy pub and a pint of stout.

History, culture, art, music, architecture, free time, nature, markets…. It's a country that amazes and thrills with attractions and events not to be missed.

✓ Wander through a millenary past, tombs and circular fortresses of the stone age, ancient castles, monasteries, imposing residences and beautiful Georgian architecture of the XVIII and XIX centuries.

✓ Explore four historical provinces (Leinster, Ulster, Connaught and Munster) and 32 counties, each with its own particular charm, old traditions and culture.

✓ Not only 40 shades of green but so much more, with pure water and golden sands, Atlantic coast-lines, islands, mountains, lunar-like limestone landscapes and jagged coastal cliffs extraordinarily beautiful and unique.

Munster Vales
Ancient trails and legendary tales, a new inland tourism destination
